Program Overview

SNHU's online **Bachelor of Science in Information Technology** offers you the technical expertise and professional skills that can be applied to drive innovation across industries. Designed by leading experts in the field, our cutting-edge IT program helps you understand the important principles of computing and their implications on various business operations.

Technology has become inseparable from an organization's operations, including applying digital strategies to leverage data, collaborating in the virtual marketplace and leveraging established and emerging technologies. The Bachelor of Science in Information Technology gives students the opportunity to combine technical abilities, business acumen, people skills and a keen problem-solving mindset to help organizations large and small leverage new technologies for innovating practices, products and processes.

Apply Now

Why Information Technology?

SNHU's online information technology degree enables students to operate in an ever-changing work environment where communication, collaboration, and the drive to proactively identify and solve problems are markers of success. Learning through hands-on real-world problems, students in this degree program will demonstrate the necessary skills that will allow them to grow and adapt within the field of information technology. This degree will prepare students for current IT work and provide the skills and dispositions to ready themselves and their organizations for the rapid evolution of future technologies.

- Overall employment in the computer and IT industry is projected to grow 15 percent from 2021 to 2031 creating 682,800 new jobs over the decade.*

Career Potential

Unlock a career-transforming journey with an online Bachelor of Science in Information Technology. Gain a unique blend of technical prowess and business acumen that empowers you to drive innovation, lead with critical thinking, identify system problems and solve complex challenges. Shape an exciting career across diverse domains in job roles like:

- Cyber security analyst
- Computer systems analyst
- Information security analyst
- IT project manager

Apply Now

What Will You Learn?

Students will learn the fundamental information technologies, systems, data management methods and computational thinking strategies necessary to support organizational decision-making and recommend effective system design and maintenance solutions.

The comprehensive curriculum covering the basics of information technology and advanced system design will help you become a highly sought after IT professional ready to impress employers.

Graduates of the program will be equipped to lead with the following skills:

- Analyze, resolve complex and challenging computing problems like managing databases or implementing network solutions.
- Create high quality software and applications leveraging the latest technology, hardware and tools.
- Plan, execute, manage IT projects with confidence while identifying and mitigating risks.
- Build, configure and maintain complex and robust computer networks and streamline systems.
- Protect digital assets from potential cyber threats and ensure the privacy of sensitive information.

Meet Our Faculty Members

SNHU is dedicated to student success, and that starts with bringing expert faculty to teach our specialized subjects for students studying online from India. In addition to real-world experience in their field and a passion for education, each faculty member undergoes training for online instruction from SNHU.

Our faculty members for online degrees in India are Indian, meaning they can help bridge the cultural gap and give you the unique perspective of an Indian professional working domestically and globally. SNHU hires our Indian faculty members at the same standard as our on campus faculty, so you'll get the unique opportunity to learn from local experts hired at U.S. university standards.

Faculty Highlight

Dr. Meera Iyer, PhD

12+ years of experience

Teaches Physiological Psychology

Dr. Iyer is a child and adolescent psychologist with a PhD in psychology, specializing in cyberpsychology.

She is a member of prominent international and national psychological associations (APA, INSPA, NAOP and BCPA) and has made contributions to government-based initiatives (NCPCR, Mission Shakti-Gov. of India) for counseling trauma and domestic abuse victims.

Dr. Nilakantan Narasinganallur, PhD

32+ years of experience in finance, 15+ years of teaching MBA programs

Teaches Applied Business Statistics

Dr. Narasinganallur has earned his Ph.D. in Management from Mumbai University, where his research focused on financial derivatives and the comparison of option valuation for indexes and equities in the Indian stock market to valuations in the US stock market.

He is a published author of a book on modern risk analysis and various peer-reviewed research papers in international journals.

Apply Now

Dr. Sivaraman Eswaran, PhD

**Completed his PhD at Bharathiar University, Coimbatore in 2019
Teaches Security Risk Analysis and Planning**

Dr. Sivaraman is a CompTIA Security+ certified professional and EC-Council Certified Computer Hacking Forensic Investigator in addition to a Microsoft Certified Professional and EMC Academic Associate.

He received an internal research grant funded by PES University for a research project, in addition to several research projects funded by Curtin University Malaysia in collaboration with the University of Nottingham Malaysia and the Swinburne University of Technology Malaysia.

Dr. Veena Tripathi, PhD

Dr. Tripathi's experience spans various industries (automobile, banking, entertainment, NGOs and educational institutions) and regions including Europe, North America, India and Central Asia. Professor Veena is a certified coach from HarvardX and University of Michigan and her major focus is to bring purpose, positive energy and creative confidence to every teaching experience. Currently, she is the Director of Global Strategic Partnership of an NGO, a marketing professor at Jaipuria Institute of Management, Delhi in addition to being faculty member at SNHU. She brings to the table a varied set of skills and experience ranging from mental health to personal branding to marketing communications. She is also a columnist for the Indian Sleep Product Federation magazines, Loud Applause, Data quest and more.
