Program Overview

Turn your empathy and passion for helping others into a career in high demand with SNHU's online **Master of Science in Psychology program**. This unique program will help you understand the human mind and behavior while learning advanced research methods in the field of psychology. Our MS in Psychology program is non-clinical in nature, so it is perfect for students looking to advance their career in psychological research or in a field that requires an understanding of human nature, such as market research or social services, as well as those looking to pursue a doctorate in the future. This program will not lead to licensure or certification as a psychologist, but may be a great step towards that. Check your local requirements regarding the practice of psychology for more information.

Apply Now

Why Psychology?

As the professional landscape rapidly changes around the world, there is a growing demand for individuals with a formal psychology background to help companies understand their customers and clients. Industries including business, marketing, education, health service, criminal justice, sports management and information technology are increasingly seeking professionals to help their organizations improve performance, motivation and general well-being. Though non-clinical in nature, there are a variety of in-demand areas in which graduates from this program can work in:

- Applications for psychology programs in India have increased from pre-pandemic levels by 50-60%, meaning professionals see the potential of a well-rounded degree in psychology.*
- The average market research manager makes an average of ₹1,179,856 per year.^

Apply Now

What Will You Learn?

SNHU's online psychology program begins with the theoretical foundations of psychology and academic research, then dives deep into the science of the human mind to help prepare you for a range of careers in just about any industry. You will master critical areas such as research methods, cognitive psychology, social psychology, learning theory and ethical practice of psychology. Led by faculty who are experts in the field, this practical course will expose you to real-world case studies and offer you hands-on experience in the field. Our curriculum ensures you graduate with the skills to:

- Advocate for psychology's role in promoting agency and the psychological well-being of individuals, communities and organizations.
- Adapt to shifting demands and ill-structured problems by critically evaluating the relevance, priority and appropriateness of various information and potential courses of action.
- Design, conduct and evaluate research through the lens of its potential to advance knowledge in psychology as well as the psychological well-being of individuals, communities and organizations.
- Integrate psychological theories, methods and research to generate new knowledge and promote agency and the psychological well-being of individuals, communities and organizations.
- Incorporate empathy, reflectivity and an appreciation for collaboration and diversity of perspectives into efforts to promote agency and the psychological well-being of individuals, communities and organizations.
- Protect the integrity and professional responsibility of psychology through the demonstration of ethical comportment in all aspects of the profession.

Curriculum

If you would like more information about any of the subjects, please click on the subject code to bring you to the academic catalog.

Foundation Subject *(9 Total Credits - does not count toward degree total)*

PSY500 - Foundations of Psychology

SCS501 - Foundations in Statistics

SCS502 - Foundations in Research Methods

Major Subjects *(24 Total Credits)*

PSY510 - Research Methods in Psychology I: In this course, students will learn methods commonly used in psychological research. As part of these methods, students learn how to gather and analyze data across a variety of settings. These newly acquired skills and techniques will be reinforced by application to a contemporary issue in psychology.

PSY520 - Research Methods in Psychology II: In this course, students will develop a deeper understanding of the research process and data analysis by applying skills learned in Research Methods in Psychology I and building on them with new skills and technique including advanced research design and use/interpretation of higher-level statistical tests (ANOVA, regression, etc.). These newly acquired skills and techniques will be reinforced by application to a contemporary issue in psychology.

PSY530 - Social Psychology: The focus of this course is on contemporary social psychology issues and research related to people's interactions with the environment, technology, and society, as well as classic studies and theories in the field-including those related to conformity, obedience, identity and attitudes that remain relevant. Students will evaluate the perspectives, relevancy and usefulness of social psychology to real world issues and problems.

PSY540 - Cognitive Processes: Students will investigate topics in cognitive psychology, including memory, language, attention, learning, and decision-making. Students will evaluate the perspectives, relevancy, and usefulness of cognitive psychology to real world issues and problems.

PSY550 - Measurement and Assessment: Learn and apply psychometric techniques commonly used in psychology. Explore measurement techniques and strategies used in the development and administration of psychological tests and assessments. Analyze and assess test and assessment results. Examine the ethical issues related to test and assessment administration and interpretation.

PSY560 - Theories of Personality: This course will emphasize contemporary theories, research, and approaches in personality psychology, connecting these to classic theorists such as Freud as well as other historical traditions and perspectives. The past and present impact of these theories within the ever-changing field of psychology will be explored, as well as the impact they have on culturally diverse clients and special populations.

PSY570 - Ethical Practice in Psychology: This course provides a comprehensive overview of the principles of ethical practice within the field of psychology. Topics include experimentation, confidentiality, respect, resolving ethical dilemmas, professional standards of conduct and the psychology of ethical behavior.

PSY790 - Capstone in Psychology: This capstone course is the culminating experience for the M.S. in Psychology program. The aim of the capstone is to assess students' ability to synthesize and integrate the knowledge and skills they have developed throughout their coursework, rather than introducing new concepts. This course is structured to support student success in fulfilling program requirements.

Major Electives

12 credits (4 subjects) from PSY within the 500 - 699 range. Speak with your advisor to learn which we are currently offering. course is structured to support student success in fulfilling program requirements.

Total Credit Hours: 36 credits (or 12 Subjects)

Disclaimer: Subject availability is not guaranteed. Not all subjects are available for all terms and in the event there is an error, the university reserves the right to remediate. Subjects are not necessarily able to be taken in the order listed.

Meet Our Faculty Members

SNHU is dedicated to student success, and that starts with bringing expert faculty to teach our specialized subjects for students studying online from India. In addition to real-world experience in their field and a passion for education, each faculty member undergoes training for online instruction from SNHU.

Our faculty members for online degrees in India are Indian, meaning they can help bridge the cultural gap and give you the unique perspective of an Indian professional working domestically and globally. SNHU hires our Indian faculty members at the same standard as our on campus faculty, so you'll get the unique opportunity to learn from local experts hired at U.S. university standards.

Faculty Highlight

Dr. Meera Iyer, PhD

12+ years of experience

Teaches Physiological Psychology

Dr. Iyer is a child and adolescent psychologist with a PhD in psychology, specializing in cyberpsychology.

She is a member of prominent international and national psychological associations (APA, INSPA, NAOP and BCPA) and has made contributions to government-based initiatives (NCPCR, Mission Shakti-Gov. of India) for counseling trauma and domestic abuse victims.
